Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

It is so important to have the ability to contact 911 and other locations while traveling. Tracfone is currently the best deal out there. We don't make interstate calls and don't want to have to pay for those that do. So many people that I know of will have to discontinue their tracfones if the prices go up. I would hate to see them lose the security of their phones for the sake of this unfair tax.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lisa Brackbill
